## Electrical heating plate CT 2200E

**Item number: 23 000**

### Description:

CERAN® SINGLE COOKING PLATE made in Germany with an attractive design and high-quality technology. The 2-circuit cooking plate impresses with its high utility value and high-quality materials. The easy-care stainless steel housing and the original SCHOTT CERAN® glass ceramic cooking surface offer the highest quality. Thanks to the energy-saving 2-circuit HiLight® technology, you can choose between a 140 mm Ø heating zone and an extra-large 210 mm Ø heating zone as required. The temperature is infinitely variable and the overheating protection, indicator light and residual heat indicator and a residual heat indicator ensure a high level of safety during use. A very special hotplate that meets even the highest demands!

### Technical data:

- Type: CT 2200/E
- 230 V ~ 2200 W / stainless steel
- Made in Germany
- heating zone 140 mm Ø 1000 W / 210 mm Ø 2200 W
- original Schott Ceran® cooking surface
- casing made of superior stainless steel, brushed and sanded
- featuring an unmatched and especially shapely Softline Design
- power-saving 2-circuit HiLight technology, allowing for an extra-large heating zone (210 mm Ø) to be switched on in addition
- energy regulator infinitely variable
- overheating protection and automatic cooking system
- residual heat indication and pilot lamp
- dimensions: 30.5 x 41 x 7.5 cm
